WHY COMMISSIONERS PLACE WITH US

01 **Female complex provision is scarce.** Most independent rehabilitation beds are for men, so women are placed out of area.

02 **Local, or the way home.** Local placements, and repatriation from out of area.

03 **One provider, every stage.** Continuity of care across every stage of mental health rehabilitation, without searching for a new placement as needs change.

04 **The hardest placements accepted.** One to one and two to one observation, agreed per placement.
